

# ADVANCED STANDING AND RECOGNITION OF PRIOR LEARNING PROCEDURES - SCHEDULE 1

## Establishing Equivalence of Prior Learning

The University utilises the following processes to guide the award of credit and application of credit amounts.

### EQUIVALENCE OF FORMAL LEARNING - OVERSAS QUALIFICATIONS

The equivalence of an accredited overseas qualification is established when the University receives your application, and then use the Australian [Country Education Profiles \(CEPs\)](#) online qualifications recognition tool or other appropriate guide such as the [UK European National Information Centre \(UK ENIC\)](#), for comparing international qualification levels to [Australian Qualifications Framework \(AQF\) levels](#).

### EQUIVALENCE OF NON-FORMAL LEARNING

The equivalence of a non-accredited course, credential, seminar, or professional development program is established when the University assesses your application, using the [Evidence Checklist for non-accredited programs](#) and mapping process, for comparing international levels of learning to AQF levels.

### EQUIVALENCE OF INFORMAL LEARNING

The equivalence of years of service in an occupation, voluntary role or life experience is established when the University assesses your application, using the tables in Appendix 1 as a guide to AQF levels comparability, adapted from the [Australian and New Zealand Standard Classification of Occupations \(ANZSCO\)](#).

The minimum informal experience and combinations of lower formal study that may substitute for holding a qualification are listed in [Appendix 1](#)

[ANZSCO skill levels](#) measure:

- the level or amount of formal education and training;
- the amount of previous experience in a related occupation; and
- the amount of on-the-job training.

[Search ANZSCO](#) or view the [ANZSCO Structure](#) to identify the indicative skill level of an occupation.

## Credit Amounts

The following credit thresholds normally apply for related prior learning<sup>1</sup>.

Credit is awarded for the highest AQF level of learning achieved in the same or a closely allied discipline/field/branch of learning. Generally, the University awards credit once per qualification level. For example, holding two related Diplomas (or a double diploma) provides a maximum of 8 units credit, not 16 units.

### INTO RELATED MASTERS DEGREES

(1) Where an applicant seeks entry into a coursework **Masters Degree** with a related program/course/qualification or equivalent experience, credit will normally be awarded as follows:

More credit may be granted for greater alignment of learning outcomes, through waiver by the Pro Vice Chancellor (Academic Quality).
