Section 2 - Definitions

(4) See the [Course Progress and Completion Within Expected Duration of Study Policy](#).

Section 3 - Procedures

Part A - Managing Unsatisfactory Course Progress

(5) Student Care and Support monitors the course progress of each international student. Monitoring strategies include proactive early intervention based on assessment and engagement indicators, including accessing Blackboard, on-time submission of assessment and review of individual student performance following the release of grades at the end of each Term. Students identified as not making satisfactory course progress or at risk of not completing their course within the expected duration of their Confirmation of Enrolment (CoE) must be notified, and if required, placed on an intervention strategy as follows:

- a. at the end of each study period after notification of final grades the Manager, International Student Support Services must identify students who have failed one unit only in the study period and inform each student in writing:
 - i. of the University's requirement that the student complete the course in the expected duration;
 - ii. that the student is required to make up for the failed unit by increasing load in a future study period or enrolling in a non-compulsory study period;
 - iii. where to locate the support services and assistance that is available to the student to assist them;
 - iv. that the student must notify the International Student Adviser in writing as soon as they become aware that they cannot complete the course by the completion date specified on their CoE as a result of the unit failure; and

- v. that the University may not approve an extension of course duration if the International Student Adviser has not received advice of the need for an extension of course duration within four weeks of it becoming apparent that the student cannot complete the course by the completion date specified on their CoE;
- b. at the end of each study period after notification of final grades the Manager, International Student Support Services must identify those international onshore students who are making unsatisfactory progress but are not yet eligible to be excluded because they have:
 - i. failed in 50 percent or more of the units attempted in the study period; or
 - ii. failed the same unit twice; or
 - iii. obtained an Absent Fail grade in one or more units; and
- c. notify them in writing that they must attend an appointment with the campus International Student Adviser to discuss their course progress.

(6) Students with 'Incomplete' grades in any study period may be required by the Director, SCU International to provide an explanation as to why the assessment requirements for the unit have not been completed. A student with 'Incomplete' grades may be identified as not making satisfactory course progress in accordance with clause(5)a or(5)b.

Part B - Intervention Strategies

(7) Students identified under clause (5)b must be advised:

- a. that unsatisfactory course progress in a course for three consecutive study periods could lead to the student being excluded from course, reported to the [Department of Home Affairs](#), and cancellation of their CoE;
- b. if appropriate, on the suitability of the course in which they are enrolled;
- c. of any opportunities to be reassessed in assessment tasks failed; and
- d. resources available to assist the student to improve performance.

(8) The International Student Adviser must design, document and activate an intervention strategy for each at risk student. The document must:

- a. be headed "Intervention Strategy";
- b. be subject to clause (10), be signed by the student and International Student Adviser; and
- c. detail:

(9) A copy of the Intervention Strategy must be provided to the Course Coordinator.

(10) The agreement of the Student is not required for an International Student Adviser to activate an intervention strategy. If a student's signed agreement to an intervention strategy cannot reasonably be obtained, the International Student Adviser may activate an intervention strategy by notifying the student in writing in accordance with the [Course Progress and Completion within Expected Duration of Study Policy](#).

(11) The Intervention Strategy must specify what additional support will be provided to students at risk of not meeting satisfactory course progress requirements. Strategies for assisting students at risk at no or minimal cost to the student may include, but are not limited to, the student receiving:

- a. academic skills support;
- b. additional English support;
- c. increased monitoring;
- d. a mentor programme;
- e. personal counselling; and
- f. reduction in course load.

(12) The Intervention Strategy must be activated within the first four weeks of the following study period.
