## **Section 1 - Purpose and Scope**

(1) The Australian Government's Research Training Program (RTP) provides funding to universities to support the research training of both domestic and international higher degree research (HDR) candidates.

(2) This Policy establishes the University's selection principles and conditions for RTP Stipend and Fee Offset Scholarships (domestic and international), in accordance with the [Commonwealth Scholarships Guidelines \(Research\) 2017](#) (the Guidelines).

Requests to defer the Scholarship must be made via e-mail to [hdrscholarships@scu.edu.au](mailto:hdrs Scholarships@scu.edu.au) and your proposed supervisors. Requests to defer will require the support of your proposed supervisor and Director, Higher Degree Research.

(23) The Dean, Graduate Studies will review requests for deferment on a case by case basis. If funding for the scholarship is not available at a later time, a deferral may not be possible.

## **Section 4 - RTP Fee Offset Scholarships**

### **Introduction**

(67) The Australian Government's RTP provides funding to universities to support the research training of both domestic and international HDR candidates. The funding provided through the RTP allows universities to provide tuition fee offsets to domestic candidates commencing or enrolled in HDR programs for which RTP support is available, with the requirement that the university fully offsets tuition fees applicable for a candidate within a maximum period of candidature.

(68) The support provided through the RTP Domestic Fee Offset replaces the Australian Government's Research Training Scheme (RTS) and is governed by the [Guidelines](#).

(69) HDR programs for which candidates may be supported by a RTP Domestic Fee Offset Scholarships are determined by the University on the basis of advice from the Faculty or College and the Graduate School and cover Masters by Thesis, Professional Doctorate and Doctor of Philosophy awards.

(70) The University awards RTP International Fee Offset Scholarships to international candidates of exceptional research potential commencing or enrolled in HDR programs for which RTP support is available. The fee offset provided will remove the liability of the HDR candidate to pay program tuition fees for the tenure of the scholarship.

(71) The support provided through the RTP International Fee Offset Scholarship replaces the Australian Government's International Postgraduate Research Scholarship (IPRS) scheme and is governed by the [Guidelines](#).

(72) An RTP Fee Offset Scholarship means the student will not be liable for any tuition fees for the period the scholarship is awarded.

### **Duration of Scholarship**

(73) The maximum duration of a RTP Fee Offset Scholarship is three years and three months full time equivalent for a

student undertaking Research Doctorate studies, and two years for a student undertaking Research Masters studies. The duration of the scholarship will be reduced by any periods of study undertaken towards the degree prior to the commencement of the scholarship.

(74) For PhD candidates, one scholarship extension may be considered where it is due to delays in the research outside the control of the recipient and where the delay is related to the research rather than being of a personal nature. The maximum period of a scholarship extension will be three months, with requests over three months requiring a strong and compelling case.

(75) The RTP Fee Offset Scholarship is contingent on continued enrolment in the relevant award, which is subject to the candidate maintaining satisfactory academic progress.

### **Eligibility Requirements for RTP Domestic Fee Offset Scholarship applicants**

(76) To be eligible for a RTP Domestic Fee Offset, a candidate must be:

- a. an Australian or New Zealand citizen, or an Australian permanent resident; and
- b. commencing or enrolled in a HDR award (for which RTP support is available) at the University.

(77) A RTP Domestic Fee Offset Scholarship will not be provided to a candidate who is in receipt of an equivalent award or scholarship from the Australian Government designed to offset HDR tuition fees.

### **Award of RTP Domestic Fee Offset Scholarship**

(78) Domestic applicants who are offered a place in a supported HDR program at the University will be provided with a RTP Domestic Fee Offset. The Fee Offset will be supplemented by support from Southern Cross University in order to remove the applicant's liability to pay tuition fees during the tenure of the RTP Domestic Fee Offset place.

(79) The University will send applicants an offer letter that will set out the estimated annual value of the Australian Government's support and the University's support towards the offset of the candidate's tuition fee liability.

### **Eligibility Requirements for RTP International Fee Offset Scholarship applicants**

(80) To be eligible for a RTP International Fee Offset Scholarship, an applicant must:

(84) International HDR students who are not awarded an RTP Scholarship Stipend may apply for a University Offset Scholarship through the process described on the Graduate School's Scholarship and Fees website under the Australian Government Research Training Program (RTP) Application Scholarship section. The University will maintain this information on the website beyond the period in which applications are open.

(88) The maximum period of tenure for a RTP Fee Offset is normally three years and three months (full-time equivalent) for a Doctoral program and up to two years (full-time equivalent) for a Masters (Research) program, calculated from the date of commencement in the HDR program.

(89) Continuation of receipt of the RTP International Fee Offset Scholarship during the tenure of the award is dependent upon evidence of the awardee's satisfactory progress in the HDR program, through the timely completion of candidature milestones and satisfactory progress reports.

(90) The tenure of a RTP International Fee Offset Scholarship will be reduced by any period of study undertaken towards the research project and/or degree prior to the commencement of the award.

(91) A Doctoral candidate making satisfactory progress may apply for an extension to the RTP International/Domestic Fee Offset Scholarship tenure for up to a maximum of three months. An extension will only be approved where the grounds for the extension relate to the study and are beyond the control of the candidate, and could not have been reasonably anticipated at the commencement of the program. A request for an extension must be made at least one month before (but no more than two months before) the expiry date of the scholarship. #### **Transfer from/to another Higher Education Provider**

(94) A request for transfer to Southern Cross University by a HDR candidate in receipt of a RTP Fee Offset from another university will be considered subject to sufficient RTP funds being available to support the candidate.

(95) If sufficient RTP funds are unavailable, the candidate may apply for a Southern Cross University Fee Offset Scholarship through the process described on the Graduate School's Scholarship and Fees website under the Australian Government Research Training Program (RTP) Application Scholarship section. The University will maintain this information on the website beyond the period in which applications are open.

(96) Normally, candidates seeking recognition of prior research study will only be approved to transfer from another institution where they have sufficient RTP Fee Offset tenure remaining to allow a minimum of one year (full-time

A candidate can apply to receive a scholarship on a part-time basis, or transfer from a full-time to part-time basis, if there are compelling circumstances, such as the need to provide full-time care of children or dependents that are disabled, sick, injured or elderly. Candidates must continue to meet all eligibility requirements, including satisfactory academic progress.

(101) RTP Scholarship Stipends are normally only provided to international students who are full-time candidates.

### **Changes to HDR program**

(102) A Masters by thesis student may convert to a PhD according to the [Higher Degree Research Candidate Transfer Policy](#). A PhD student may convert to a Masters by thesis in accordance with the [Higher Degree Research Candidate Transfer Policy](#).
