Scope

(2) These Procedures apply to all coursework courses.

Section 2 - Procedures

Comprehensive Course Review Process

Instigation and Timing of Review

(3) Comprehensive Course Reviews will normally be conducted on a rolling five-year schedule, as approved by the Pro Vice-Chancellor (Academic Quality) in consultation with the College Dean (CD)/Faculty Executive Dean (ED) and the Director, Business Intelligence and Quality.

(4) The Pro Vice-Chancellor (Academic Quality) may approve changes to the schedule where the period since the previous review does not exceed seven years.

(5) The Comprehensive Course Review (CCR) schedule will be aligned, wherever possible, with the external accreditation and reviews of related courses to minimise duplication of effort, and made available to the University community.

(6) Once a course review timing is confirmed, the Office of Business Intelligence and Quality (BIQ) will announce the review to the Faculty normally at least 12 months prior.

(7) The Director (BIQ) will present the course review schedule for the calendar year to the Academic Standards and Quality Committee (ASQC) at its first meeting in each calendar year.

Terms of Reference

(8) The quality assurance of academic standards and principles for a Comprehensive Course Review are set out in the Academic Quality, Standards and Integrity Policy.

(9) A reduced CCR scope may be applied under the following circumstances, if approved by the Pro Vice-Chancellor (Academic Quality):

- a. when a course has been professionally accredited within the past five years, following a gap analysis conducted by BIQ, the scope of the relevant CCR may be addressed by evidence from the external accreditation process, including findings and recommendations from the external accreditation panel. The gap analysis will address the following:

- b. comparison of the professional accreditation requirements with the University's CCR requirements;
- c. assessment of whether a physical site visit is required;
- d. assessment of whether panel member interviews are required, and if they are the roles which should be included; and
- e. recommendation for the panel membership composition.

(10) When a course is in teach out, and has an expected removal date exceeding 12 months, a reduced CCR scope informed by relevant TEQSA guidelines may apply.

The Review Panel

(11) The Pro Vice-Chancellor (Academic Quality) in consultation with the relevant CD/ED will appoint the Review Panel, which will normally include:

- a. at least one academic staff member of another university to be the independent academic expert;
- b. at least one senior academic staff member of the University from a different Faculty or College to the Faculty or College that owns the course; and
- c. optionally, a representative of current students or alumni;
- d. optionally, a representative from the relevant professional community and/or industry.

(12) Academic panel members must have relevant experience in course development, monitoring and improvement activities.

(13) A Review Panel may be tasked to review a single course or a group of related courses. The number of reviewers will depend on the number of courses being reviewed together. For instance, if the suite of courses is complex or spans multiple discipline areas, more reviewers may be appointed.

(14) Should a panel member subsequently be unable to undertake their role on the panel, an alternate panel member with the same representative role will be appointed in their place. Where this is not possible, the Pro Vice-Chancellor (Academic Quality) will make a determination that ensures the integrity of the review process is maintained.

(15) Where a course is subject to suitable academic and independent scrutiny, such as through professional accreditation processes within the five-year review cycle, the Pro Vice-Chancellor (Academic Quality) may approve a reduced CCR scope which does not require the appointment of an independent expert panel member, or a physical site visit.

(16) The Review Panel will normally be chaired by the independent expert.

(17) Where relevant, independence will be assessed in accordance with the [TEQSA Guidance Note – Independent Experts engaged by providers](#).

(18) A representative of BIQ will act as the Secretary for the review.

(19) Comprehensive Course Reviews are conducted in accordance with the Comprehensive [Course Review Process](#). BIQ will:

It may be appropriate for the Faculty or College to commence course and/or unit approval processes as soon as an issue is identified in accordance with the Course and Unit Approval Authorities/Document/Policy Library.

(40) BIQ will record the outcome of the review in UCMS.
